Customer Information Notification 201910019I

Issue Date: 01-Nov-2019
Effective Date: 02-Nov-2019

Here's your personalized quality information concerning products Digi-Key purchased from NXP. For detailed information we invite you to view this notification online

This notice is NXP Company Proprietary.

Management Summary
PCA9575HF PCB footprint was corrected from 40 pads to 24 pads. Attached data sheet reflects the update.

Correct Footprint for Solder Reflow - PCA9575HF

Description

PCA9575HF PCB footprint was corrected from 40 pads to 24 pads. Attached data sheet reflects the update.

Reason
PCB drawing needs to reflect the 24 pin package

Identification of Affected Products
Product identification does not change

Anticipated Impact on Form, Fit, Function, Reliability or Quality

No impact on form, fit, function, reliability or quality.

Data Sheet Revision
A new datasheet will be issued

Disposition of Old Products
Existing inventory will be shipped until depleted

Contact and Support

For all inquiries regarding the ePCN tool application or access issues, please contact NXP "Global Quality Support Team".

For all Quality Notification content inquiries, please contact your local NXP Sales Support team.

For specific questions on this notice or the products affected please contact our specialist directly:

Name Andrea Bruton
Position QA Analyst
e-mail address andrea.bruton@nxp.com

At NXP Semiconductors we are constantly striving to improve our product and processes to ensure they reach the highest possible Quality Standards.
Customer Focus, Passion to Win.

NXP Quality Management Team.

About NXP Semiconductors

NXP Semiconductors N.V. (NASDAQ: NXPI) provides High Performance Mixed Signal and Standard Product solutions that leverage its leading RF, Analog, Power Management, Interface, Security and Digital Processing expertise. These innovations are used in a wide range of automotive, identification, wireless infrastructure, lighting, industrial, mobile, consumer and computing applications.
